Welcome to the biggest stock of nets in Europe, with 1000 tonnes, (about 10,000,000m²) of finished or semi finished product. Debris netting increases site safety by keeping rubbish, debris or tools falling from the scaffolding. Rhino debris net is manufactured from a UV stabilised high density polythene monofilament (HDPE) for excellent durability, is temperature resistant from -40 Deg C to +120 Deg C, provides 35% windbreak & 30% shading and a heavy duty tear strength of 350 Kg / m².

Cable Ties (100pc) £2.27
